APPLICABLE VERSIONS

- › BMC Client Management 12.5

REQUIRED PREREQUISITES

- › None

TARGET AUDIENCE

- › Administrators and Consultants

EXAM DURATION

- › 2 Hours

PURPOSE OF EXAM

BMC Client Management is an advanced systems management software that provides a reliable way to monitor all systems on a network. It isolates the exact point of failure when problems occur and makes it possible for network and system difficulties to be resolved quickly. BMC Client Management is a client-server system made up of several different computer programs. It contains a database which is integrated with the master server, a graphical user interface to access the data in the database, and the agents installed on the clients providing the data for the database.

The **BMC Certified Associate for BMC Client Management** Certification Exam will validate the technical competencies needed to successfully deploy, operate and administer out-of-the-box (OOTB) baseline functionality for BMC Client Management.

Skills Tested

Participants will be tested on their knowledge of the following:

- » Client Management design, implementation and configuration
- » Configuration of Agent, Relay and Remote features
- » Use of Inventory Manager features
- » Use of the patch and compliance management processes
- » Use of queries and reporting functionality

For detailed information around these topics, refer to the course abstract(s) for the recommended course(s).

Recommended BMC Software Courses to Prepare for the Certification

The following course offered by BMC Education Services prepares the participants to take the Certified Associate exam and also improve their knowledge and skill level to help build proficiency with the solution:

- » *BMC Client Management 12.x: Fundamentals for Administrators – Part 1 (ILT,VILT)*
- » *BMC Client Management 12.x: Fundamentals for Administrators – Part 2 (ILT,VILT)*

BMC Certified Associate: Client Management 12.x Online Exam

Certification Brief
