

Family building is a highly personal process, and there are many paths to parenthood. It can be difficult to choose the right fertility treatments that work within your budget. Pendant Concierge Care Navigators provide personalized consultation and coordinate access to treatment with health care providers so you can find the best fertility care that works for you.

How concierge care works

Pendant Concierge Care Navigators are here to support you every step of the way through your fertility journey. They'll guide you through the process, ensuring you have the care you need, so you can focus on receiving the treatment you deserve.

You can count on our Care Navigators to:

- Explain the discounted treatment packages and the most affordable payment options your clinic offers
- Help you find needed services and products for your treatment plan
- Manage financial discussions between you and your in-network clinic
- Provide continuous support and follow-up to help choose the right package for you
- Answer your questions and coordinate all related logistics with your clinic

Additional resources at your fingertips

You'll have access to our digital platform packed with personalized mobile tools that'll give you all the education and support you need, including:

- Virtual Telehealth Visits
- Affordability Estimator
- Fertility Calculator
- Infertility Stress Test

Finding the right care for you

Your journey to parenthood is as unique as you are – there's no one-size-fits-all solution. Pendant will help you find the perfect match of treatments and personalized care through our network of trusted and esteemed clinics.

Support for managing stress

Fertility treatments can come with their fair share of stress and uncertainty. The costs, time commitment and unpredictability of the process can raise anxiety levels. But you're not alone. We're here to support you every step of the way.

Pendant Concierge Care Navigators are knowledgeable and can help you find:

- Fertility preservation professionals
- Reputable care from a network of the top physicians in the U.S.
- Fertility medications
- Donor eggs, sperm, embryos, surrogates and adoption agencies
- Legal and financial expertise
- Knowledge of other company benefits to help support you
